- 4 *RASC (Royal Astronomical Society of Canada), Canada*
- 5 *FAAQ (Fédération des Astronomes Amateurs du Québec), Canada*
- 6 *University of Toronto, Canada*
- 7 *McMaster University and CASCA (Canadian Astronomical Society – Société Canadienne d’Astronomie), Canada*
- 8 *Galaxy Consulting, Canada*

ABSTRACT: IYA programs in Canada were guided by a partnership formed in 2005-2006 between the two largest organizations of (predominantly) amateur astronomers, the Fédération des astronomes amateurs du Québec and the Royal Astronomical Society of Canada, and the organization of professional astronomers, the Canadian Astronomical Society. Our vision was “To offer an engaging astronomy experience to every person in Canada, and to cultivate partnerships that sustain public interest in astronomy.” Examples are provided of major activities accomplished, of their impact, and of their potential legacies beyond 2009.
